PROFESSIONAL SUMMARY

Full-stack software engineer with 5+ years experience, building and maintaining production web applications in TypeScript, React, Next.js, Node.js and PostgreSQL. Developed core features of an internal manufacturing execution system used by 10+ teams, supporting a nearly 7× increase in daily production, and a customer-facing OEM portal for doctors and distributors. Experienced in workflow automation and API integration. AWS Certified Cloud Practitioner.

EXPERIENCE

Software Engineer

K Line Europe GmbH

February 2022 – September 2026

Düsseldorf, Germany

Stack: Next.js · React · Node.js · PostgreSQL · Prisma

- Developed and maintained features for a Manufacturing Execution System (MES) used by 10+ teams to track products in real time across 20 production steps, including team and individual performance analytics and API integrations for notifications and forecasting; the system supported a nearly 7× increase in daily production.
- Developed an OEM portal for doctors and distributors covering order management, communication and production tracking, with each client's own branding.
- Automated pouch printing, raising production efficiency by 30% and cutting human error.
- Implemented an SLA workflow for customers and distributors that improved production by 20% and enabled accurate calculation of sales earnings and revenue.
- Developed a dynamic case card system with QR codes, consolidating product information from 3D printing through shipment into a single workflow.

Programmer

Digicon Technologies Limited

July 2019 – December 2020

Dhaka, Bangladesh

Stack: PHP (OOP) · MySQL · JavaScript · jQuery · HTML · CSS

- Built and maintained complaint management systems using PHP and MySQL, including authentication, complaint logging, status tracking, report generation and automated daily reporting between agents and supervisors; improved call-center efficiency and reduced information errors by 25%.
- Developed a complaint management web portal for malaria control, adopted by Dhaka City Corporation.
- Developed a task management system to assign, track and monitor employee tasks across departments.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, Python, PHP, C/C++

Frontend: React, Next.js, Chart.js, HTML, CSS, jQuery

Backend: Node.js, Express, Prisma, Django, Laravel

Databases: PostgreSQL, MySQL, SQL Server

Cloud & DevOps: AWS, Docker, GitHub Actions, CI/CD, Linux

Tools: Git, GitHub, Postman, Chrome DevTools

EDUCATION

American International University-Bangladesh

2015 – 2018

Bachelor of Science in Computer Science & Engineering

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advanced Data Structures and Algorithms, Information Retrieval, Image Processing.

CERTIFICATIONS & LANGUAGES

Certification: AWS Certified Cloud Practitioner

Languages: English (fluent), German (B1), Bengali (native)
